REMARKS

Claims 7-9, 19-24, 29-35, 38-41, and 47-66 are pending, with claims 7, 8, 29, 30, 38, 47, 48, 54, 55, and 59 being independent. Claims 7-9, 19-24, 29-35 and 38-46 were previously allowed. Independent claims 7, 8, 29, 30 and 38 have been amended, claims 42-46 have been canceled, and claims 47-66 have been added. In particular, claims 7, 8, 29, 30, and 38 have been amended to include the features of, respectively, canceled claims 42-46.

Support for new claims 47-66 can be found in the specification, at least at page 2, line 24 to page 5, line 13; page 8, line 3 to page 9, line 4; and Figs. 1, 2A, and 2B. No new matter has been added.

Applicant requests consideration and allowance of the new claims. In particular, as discussed in the Reply dated May 25, 2006, the previously-cited references fail to describe or suggest at least a light emitting device in which an electric potential of a source line is the same as that of a power source line, as recited in each of independent claims 47, 48, 55, and 59, or an electric potential supplied to a second TFT (that is electrically connected to a source line) is the same as that of the power source line, as recited in claim 54. Thus, for at least these reasons, claims 47-66 are allowable.
